

ELANTRA N

Performance to the power of **N.**

N is our high-performance brand inspired by motorsport. Every N model is the result of decades of experience from our R&D centre in Namyang, Korea, and endless testing at the Nürburgring in Germany, one of the world's most demanding racetracks. Through this painstaking process, N performance, design and technology are born. Experience highly concentrated performance in a precise package designed to elevate driver engagement to a whole new level.

Performance and fun.

For those who love to drive, here comes a new breed of high-performance sedan worthy of the N badge.

Race-worthy. Street-legal.

The motorsport-inspired ELANTRA N takes performance to an entirely new level. Its powerful 2.0L Turbocharged, flat-power GDI engine with 276 hp and 289 lb.-ft. torque will take you enthusiastically from 0 to 100 km/h in 5.3 seconds with launch control*.

Its Electronically Controlled Suspension helps you take on every corner with ease.

And you get to choose between its spirited 6-speed, close-ratio manual transmission and the quick-shifting 8-speed Wet Dual Clutch Transmission. Both options put the power of N in your hands.

Electronic Limited-Slip Differential (e-LSD)

The ELANTRA N provides world-class cornering ability with an electronically controlled, mechanical limited-slip differential. This system uses true torque vectoring to intelligently and precisely distribute torque where it's needed most. This increases cornering speed and reduces understeer for enhanced handling agility.

Electronically Controlled Suspension (ECS)

Allows optimal control of damping force of suspension to suit the driving situation and offers a clearly differentiated ride feel according to drive mode.

Available 8-speed Wet Dual Clutch Transmission with paddle shifters (N DCT)

The N 8-speed Wet Dual Clutch Transmission (N DCT) is an automated manual transmission with two separate clutches for increased efficiency, faster shifting and driving convenience. The wet clutch system offers better cooling and copes with high torque; it comes with a simple gear lever arrangement, so you can push forward to downshift and pull back to upshift. With three high-performance functions enhancing the fun, you get full control over your drive.

“**N Power Shift**” provides a dynamic shifting style, giving you a push-feel when upshifting, designed to mimic the sensation of manual transmission.

“**N Grin Shift**” will put a grin on your face with the push of a button, giving you a max-power turbo boost for 20 seconds.

“**N Track Sense Shift**” senses when road conditions are optimal for dynamic driving and automatically activates, selecting the right gear and shift timing for optimal performance, allowing you to focus on steering.

*For DCT model only.

The look of **N.**

The ELANTRA N doesn't just turn corners, it turns heads. From its race car-inspired N front fascia with stunning red lip* to its parametrically sculpted side body with N logo engraved side moulding with red accents* to its wing-type rear spoiler and N rear bumper and diffuser, everything about the exterior of the ELANTRA N exudes performance.

N front fascia with unique red front lip*

**N 19" alloy wheels with Michelin Pilot Sport 4S summer tires
N logo engraved side moulding with red accents***

**Wing-type rear spoiler
N rear bumper and diffuser
Variable exhaust valve system with dual outlets**

Side body with sculpted Parametric surfaces

Power tilt-and-slide sunroof

**LED projection-type headlights
LED daytime running lights
LED mirror-mounted turn signals**

Full LED tail lights

Rear strut bar offers an enhanced body rigidity increase of 29%, compared to the standard ELANTRA model

*Red accents not applicable to Fiery Red exterior colour. Dark grey accents will be applicable for Fiery Red exterior colour.

Stay seated for the performance.

Settle into the ELANTRA N's lightweight, microsuede sport bucket seats with illuminated N logo, wrap one hand around the N-badged steering wheel and the other on the specially designed N gear shift knob. Press the start button and immediately feel the power beneath your feet through its alloy sport pedals.

The ELANTRA N surrounds its driver in complete comfort, style and safety, including heated front seats and steering wheel, distinctive aluminum N door scuffs and high-performance sport bucket seats designed for improved passenger stability during high-speed driving and cornering.

A high-tech high performer.

The ELANTRA N has been engineered to perform, and that extends to its connectivity features. With Apple CarPlay™ and Android Auto™ smartphone connectivity, you can seamlessly stream your favourite playlist, use voice commands for text messages and interact with your favourite apps on the 10.25" touch-screen.

When you're not enjoying the sound of the perfectly tuned engine of the ELANTRA N, you can listen to your music library on its eight-speaker Bose® premium audio system.

And stay connected to your vehicle and the world with Bluelink® and a three-month trial of SiriusXM™ satellite radio.
